Contents

| | |
|---|------|
| Preface | XVII |
| 1. History and subject of orthopedics (<i>Tibor Vízkelety</i>) | 1 |
| 2. Structure and development of bones (<i>Zoltán Csernátóny</i>) | 5 |
| 2.1. Structure of bones | 5 |
| 2.1.1. The composition of bone | 5 |
| 2.1.2. The bone tissue | 5 |
| 2.1.3. Bones as organs | 7 |
| 2.1.4. The development and growth of bones | 7 |
| 2.2. Biological adaptation of bones | 7 |
| 2.3. Hormones regulating the bone metabolism | 9 |
| 3. Bone healing after various types of fractures (<i>Miklós Szendrői</i>) | 11 |
| 3.1. Traumatic fractures | 11 |
| 3.2. Fracture healing. Types and stages. Factors influencing fracture healing | 11 |
| 3.3. Pathological fracture healing. Pseudo-arthritis | 13 |
| 3.4. Pathological fractures | 14 |
| 3.5. Stress fractures | 16 |
| 4. Examination methods in orthopedics (<i>Katalin Köllő, Ádám Mester, Tamás Mészáros</i>) | 17 |
| 4.1. Case history (anamnesis) | 17 |
| 4.2. Examination | 19 |
| 4.2.1. Inspection | 19 |
| 4.2.2. Palpation | 19 |
| 4.2.3. Alignment, axial deformities of the limbs | 20 |
| 4.2.4. Examination of the joints | 20 |
| 4.2.5. Range of motion of joints (ROM) | 24 |
| 4.2.6. Assessment of muscle power | 25 |
| 4.2.7. Assessment of muscle tone | 25 |
| 4.2.8. Limb length assessment | 25 |
| 4.2.9. Measurement of limb circumference | 27 |
| 4.3. The standing position and the gait | 27 |
| 4.3.1. Standing position | 27 |
| 4.3.2. Gait | 28 |
| 4.4. Limping | 30 |
| 4.5. Neurological examinations | 31 |
| 4.6. Laboratory tests | 31 |
| 4.7. Arthroscopy | 32 |
| 4.8. Histology tests | 32 |

VIII ► Contens

| | |
|--|----|
| 4.9. Imaging modalities | 32 |
| 4.9.1. X-ray tests, special X-ray investigations | 32 |
| 4.9.2. Musculoskeletal ultrasonography: | 35 |
| 4.9.3. Isotope procedures | 36 |
| 4.9.4. CT scanning | 37 |
| 4.9.5. MRI | 38 |
| 4.9.6. Invasive and interventional radiology. | 38 |
| 5. Surgical therapy in orthopedics (<i>Tamás Mészáros</i>) | 41 |
| 5.1. Muscle - tendon operations | 41 |
| 5.2. Fascia surgery. | 42 |
| 5.3. Bone operations. | 42 |
| 5.4. Operations on joints. | 42 |
| 5.5. Arthroplasty. | 44 |
| 5.6. Operation on nerves. | 47 |
| 6. Conservative treatment procedures (<i>Zoltán Csernátóy</i>) | 49 |
| 6.1. Immobilization | 49 |
| 6.2. Mobilization | 51 |
| 6.3. Non-weight-bearing. | 51 |
| 6.4. Irradiation. | 51 |
| 6.5. Laser therapy | 51 |
| 6.6. Pharmaceutical treatment | 51 |
| 7. Physiotherapy (<i>Tamás Bender</i>) | 57 |
| 7.1. Exercises | 57 |
| 7.2. Immobilization, mobilization, exercises | 58 |
| 7.3. Massage. | 59 |
| 7.4. Electrotherapy | 59 |
| 7.5. Ultrasound treatment | 60 |
| 7.6. Pulsating electromagnetic treatment | 60 |
| 7.7. High-frequency treatment | 60 |
| 7.8. Cryotherapy. | 61 |
| 7.9. Balneotherapy-health spas | 61 |
| 7.10. Compresses and packs. | 62 |
| 8. Manual therapy, acupuncture (<i>Tamás Bender</i>) | 63 |
| 9. Amputation – artificial limbs (<i>Lajos Kullmann</i>) | 65 |
| 9.1. Lower limb amputation | 65 |
| 9.1.1. Indications of lower limb amputations | 65 |
| 9.1.2. Surgical technique of amputations | 66 |
| 9.1.3. Criteria of proper stump. | 66 |
| 9.2. Lower limb prostheses | 68 |
| 9.2.1. Temporary prostheses | 68 |
| 9.2.2. Final prosthesis | 69 |
| 9.3. Upper limb amputation | 70 |
| 9.4. Upper limb prosthesis application | 70 |
| 9.4.1. Cosmetic prostheses. | 71 |

| | |
|--|-----|
| 9.4.2. Mechanical prostheses | 71 |
| 9.4.3. Prostheses powered by external force | 72 |
| 10. Orthoses, appliances for mobility (<i>Lajos Kullmann</i>) | 73 |
| 10.1. Lower limb orthoses | 74 |
| 10.1.1. Ankle - foot orthoses | 74 |
| 10.1.2. Knee orthoses | 74 |
| 10.1.3. Knee - ankle - foot orthoses | 74 |
| 10.1.4. Hip orthoses | 74 |
| 10.1.5. Hip - knee - ankle - foot orthoses | 75 |
| 10.2. Upper limb orthoses | 75 |
| 10.3. Spinal orthoses | 76 |
| 10.3.1. Lumbosacral orthoses | 76 |
| 10.3.2. Thoraco-lumbo-sacral orthoses | 76 |
| 10.3.3. Cervico - thoraco - lumbo - sacral orthoses | 77 |
| 10.3.4. Cervical orthoses | 77 |
| 10.4. Preventive sport appliances | 77 |
| 10.5. Walking aids | 77 |
| 10.5.1. Walking stick | 77 |
| 10.5.2. Crutch | 77 |
| 10.5.3. Walking frame | 78 |
| 10.5.4. Wheelchair | 78 |
| 11. Orthopedic shoes and insoles (<i>Kálmán Tóth</i>) | 81 |
| 11.1. Shoes and orthopedic shoe | 81 |
| 11.2. Shoes for children | 82 |
| 11.3. Shoe and sole insoles | 83 |
| 12. Normal growth, growth disturbances (<i>Kálmán Tóth</i>) | 85 |
| 12.1. Physiological growth | 85 |
| 12.2. Growth disturbances | 86 |
| 12.2.1. Treatment options for growth disturbances | 87 |
| 12.3. Limb deformities | 88 |
| 13. Bone dysplasias and developmental anomalies (<i>Tibor Vizkelety</i>) | 89 |
| 13.1. Frequently occurring osteochondrodysplasias | 90 |
| 13.1.1. Skeletal dysplasias with predominant metaphyseal involvement | 90 |
| 13.1.2. Skeletal dysplasias with predominant epiphyseal involvement | 92 |
| 13.1.3. Skeletal dysplasias with major involvement of the spine | 92 |
| 13.1.4. Dysostosis multiplex, complex carbohydrate storage diseases | 93 |
| 13.1.5. Skeletal dysplasias with decreased bone density | 93 |
| 13.1.6. Skeletal dysplasias with increased bone density | 95 |
| 13.1.7. Skeletal dysplasias due to the disorganized development of bone constituents | 97 |
| 14. Metabolic diseases of the bone (<i>László Bucsi</i>) | 101 |
| 14.1. Osteoporosis | 101 |
| 14.2. Osteomalacia (mollities ossium) | 105 |
| 14.2.1. Rachitis (rickets, avitaminosis D) | 106 |

X ▶ Contents

| | |
|---|-----|
| 14.2.2. Vitamin D resistant rachitis (Fanconi syndrome, phosphate diabetes) | 108 |
| 14.3. Hormonal metabolic bone diseases | 108 |
| 14.3.1. Hyperparathyroidism (Osteodystrophia fibrosa cystica generalisata, von Recklinghausen's disease) | 108 |
| 14.3.2. Hypogonadism (Adiposogenital dystrophy, Fröhlich's disease) | 109 |
| 14.3.3. Cushing's disease | 109 |
| 15. Developmental anomalies of the extremities (<i>Tibor Vízkelety</i>) | 111 |
| 16. Neuromuscular diseases (<i>Tibor Vízkelety</i>) | 115 |
| 16.1. Spinal dysraphisms, myelodysplasia | 115 |
| 16.1.1. Meningocele, myelomeningocele, myelodysplasia | 115 |
| 16.2. Cerebral palsy (infantile cerebral paresis, <i>Little</i> disease) | 118 |
| 16.3. Poliomyelitis (poliomyelitis anterior acuta, <i>Heine-Medin</i> disease) | 122 |
| 16.4. Developmental anomalies and diseases of the muscle system | 123 |
| 16.4.1. Congenital muscle absences | 123 |
| 16.4.2. Muscular dystrophy | 123 |
| 16.4.3. Myopathies due to inflammation, polymyositis | 125 |
| 16.4.4. Myositis ossificans progressiva (fibrodysplasia ossificans progressiva) | 125 |
| 16.4.5 Arthrogyrosis (arthrogyrosis multiplex congenita) | 125 |
| 16.4.6. Congenital laxity of the joints | 126 |
| 17. Tunnel syndromes (<i>Zoltán Csernátóy</i>) | 127 |
| 18. Disorders of tendons, tendon sheaths, bursae, fasciae and ligaments (<i>Zoltán Csernátóy</i>) | 135 |
| 18.1. Disorders of the tendons | 135 |
| 18.2. Illnesses of the paratenon and the tendon sheath | 136 |
| 18.3. Diseases of the bursae | 136 |
| 18.4. Illnesses of fascia | 137 |
| 18.5. Disorders of ligaments | 137 |
| 19. Diseases of joints (<i>Zoltán Csernátóy, József Lakatos, Tamás Mészáros, Gyula Poór, Miklós Szendrői</i>) | 139 |
| 19.1. The structure of the joints | 139 |
| 19.2. The biomechanical aspects of joints | 140 |
| 19.3. Arthritis | 140 |
| 19.3.1. Autoimmune locomotor diseases | 140 |
| 19.3.1.1. Rheumatoid arthritis | 141 |
| 19.3.1.2. Polysystemic autoimmune diseases affecting the locomotor organs | 144 |
| 19.3.2. Seronegative spondarthritis | 144 |
| 19.3.2.1. Spondylitis ankylopoetica (ankylosing spondylitis) | 144 |
| 19.3.2.2. Other forms of seronegative spondarthritis (SNSA) | 147 |
| 19.3.3. Juvenile chronic arthritis | 148 |
| 19.3.4. Crystal-induced arthritis | 149 |
| 19.3.4.1. Gout | 149 |

| | |
|--|-----|
| 19.3.4.2. Other forms of crystal induced arthritis | 151 |
| 19.4. Arthropathies | 151 |
| 19.4.1. Neurogenic arthropathy | 151 |
| 19.4.2. Hemophilic arthropathy | 152 |
| 19.5. Performing surgery in arthritis | 153 |
| 19.6. Synovial chondromatosis | 158 |
| 19.7. Pigmented villonodular synovitis (PVNS). | 158 |
| 19.8. Arthrosis (osteoarthritis) | 159 |
| 19.8.1. Alterations in various parts of the joint. | 160 |
| 19.8.2. Alterations in the articular endings of bones | 162 |
| 19.8.3. Transformations in the non-loaded zone, osteophytes | 162 |
| 19.8.4. Changes in the articular capsule | 163 |
| 19.8.5. Symptoms. | 163 |
| 19.8.6. Treatment of arthrosis | 164 |
| 20. Bacterial infections of bones and joints (<i>József Lakatos</i>) | 165 |
| 20.1. Osteomyelitis. | 165 |
| 20.1.1. Acute hematogenic osteomyelitis | 165 |
| 20.1.2. Chronic osteomyelitis | 171 |
| 20.1.3. Special forms of primary chronic osteomyelitis | 172 |
| 20.1.4. Special forms of inflammatory bone alterations | 174 |
| 20.2. Purulent arthritis | 177 |
| 20.3. Bone and joint tuberculosis | 179 |
| 20.3.1. Coxitis tuberculosa (tuberculosis of the hip) | 182 |
| 20.3.2. Gonitis tuberculosa (tuberculosis of the knee-joint) | 183 |
| 21. Tumors of the musculoskeletal system (<i>Miklós Szendrői</i>) | 185 |
| 21.1. General | 185 |
| 21.2. Primary bone tumors | 192 |
| 21.2.1. Histological classification of bone tumors | 192 |
| 21.2.2. Bone forming (osteogenic) tumors | 192 |
| 21.2.2.1. Benign bone forming tumors | 193 |
| 21.2.2.2. Malignant bone forming (osteogenic) tumors | 194 |
| 21.2.3. Cartilage-forming tumors. | 199 |
| 21.2.3.1. Benign cartilage-forming tumors | 199 |
| 21.2.3.2. Malignant cartilage-forming tumors | 201 |
| 21.2.4. Bone marrow tumors | 204 |
| 21.2.5. Giant cell tumor of bone. (osteoclastoma, “brown tumor of bones”) | 206 |
| 21.2.6. Other rare bone tumors | 207 |
| 21.3. Bone metastases | 208 |
| 21.4. Tumor-like bone processes. | 212 |
| 21.5. Soft-tissue tumors | 215 |
| 21.5.1. Some soft-tissue tumors of orthopedic significance | 218 |
| 22. Reflex dystrophy (Sudeck’s syndrome) (<i>Zoltán Csernátóny</i>) | 225 |

XII ▶ Contents

| | | |
|-----------|---|-----|
| 23. | Aseptic bone necrosis (<i>Árpád Bellyei</i>) | 229 |
| 23.1. | Childhood bone necrosis (juvenile osteochondrosis, juvenile osteochondritis, juvenile osteochondronecrosis) | 229 |
| 23.2. | Adult aseptic bone necrosis | 231 |
| 24. | Diseases of the spine (<i>Tamás Illés, József Lakatos, Péter Pál Varga</i>) | 235 |
| 24.1. | Biomechanics, functional anatomy, functional units of the spine | 235 |
| 24.2. | Examination of the spine. | 236 |
| 24.2.1. | Assessment of the cervical spine | 237 |
| 24.2.2. | Assessment of the lumbar spine | 240 |
| 24.2.3. | Radiological assessment | 242 |
| 24.3. | Classification of deformities of the spine | 245 |
| 24.3.1. | Characteristics of deformities in one plane. | 245 |
| 24.3.1.1. | Functional hyperkyphosis | 246 |
| 24.3.1.2. | Functional hyperlordosis | 247 |
| 24.3.1.3. | Structural kyphosis | 247 |
| 24.3.2. | Spinal deformities 3 dimension: Scoliosis | 253 |
| 24.3.2.1. | Functional (nonstructural) scoliosis | 253 |
| 24.3.2.2. | Structural scoliosis | 253 |
| 24.4. | Congenital abnormalities. | 267 |
| 24.4.1. | Spondylolysis, spondylolisthesis | 267 |
| 24.4.2. | Sacralization, lumbarization | 272 |
| 24.4.3. | Occult spina bifida | 273 |
| 24.5. | Other diseases | 274 |
| 24.5.1. | Baastrup syndrome (interspinous arthrosis) | 274 |
| 24.5.2. | Sacrum acutum | 274 |
| 24.5.3. | Coccygodynia. | 274 |
| 24.6. | Degenerative disorders of the spine | 274 |
| 24.6.1. | Degenerative spinal disorders | 275 |
| 24.6.1.1. | Degenerative process of the disc | 275 |
| 24.6.1.2. | Disc prolapse, hernia | 275 |
| 24.6.1.3. | Degenerative spine instability | 276 |
| 24.6.1.4. | Clinical examination of degenerative spinal disorders | 277 |
| 24.6.1.5. | Conservative treatment of a herniated disc and degenerative spinal stenosis | 281 |
| 24.6.1.6. | Surgical treatment of degenerative spinal disorders | 281 |
| 24.7. | Spinal changes in osteoporosis. | 282 |
| 24.8. | Tumors | 284 |
| 24.8.1. | Primary tumors | 284 |
| 24.8.2. | Metastases | 285 |
| 24.9. | Inflammations of the spine. | 286 |
| 24.9.1. | Spondylitis tuberculosa (Pott's disease) | 286 |
| 24.9.2. | Pyogenic spondylitis (spinal osteomyelitis) | 288 |
| 24.9.3. | Spondylodiscitis | 291 |
| 24.10. | Chest deformities | 292 |
| 24.10.1. | Pectus excavatum (funnel chest) | 292 |
| 24.10.2. | Pectus carinatum (pigeon chest). | 294 |

| | | |
|-----------|---|-----|
| 25. | Disorders of the neck and the shoulder girdle (<i>Jenő Kiss</i>) | 295 |
| 25.1. | Functional anatomy and biomechanics of the shoulder girdle | 295 |
| 25.2. | Examination of the shoulder girdle | 296 |
| 25.3. | The congenital and acquired disorders of the of the shoulder girdle | 297 |
| 25.4. | Disorders of the shoulder | 302 |
| 25.5. | Other painful shoulder conditions briefly | 307 |
| 25.6. | Glenohumeral instability, shoulder dislocation | 308 |
| 26. | Disorders of the elbow and forearm (<i>Jenő Kiss</i>) | 311 |
| 26.1. | Functional anatomy of the elbow and forearm | 311 |
| 26.2. | Assessment of the elbow | 311 |
| 26.3. | Significant developmental anomalies | 311 |
| 26.4. | Acquired disorders of the elbow | 313 |
| 26.5. | Volkmann's ischemic contracture of the forearm and the hand | 317 |
| 27. | Disorders of the hand and the wrist (<i>Ferenc Mády</i>) | 319 |
| 27.1. | Functional anatomy of the hand and the wrist | 319 |
| 27.2. | Congenital anomalies of the hand | 321 |
| 27.3. | Acquired hand disorders | 322 |
| 27.3.1. | Avascular necrosis of the carpal lunate bone (Kienböck's disease) | 322 |
| 27.3.2. | Cyst and pseudoarthrosis of the scaphoid bone | 323 |
| 27.3.3. | Osteoarthritis (OA) of the wrist and the hand | 324 |
| 27.3.4. | Inflammatory processes | 325 |
| 27.3.5. | Ganglionic cysts of the wrist and the hand | 326 |
| 27.3.6. | Dupuytren's contracture | 327 |
| 27.3.7. | Tumors and tumorous conditions in the hand | 328 |
| 28. | Hip disorders (<i>Árpád Bellyei, József Lakatos, Miklós Szendrői</i>) | 329 |
| 28.1. | Pediatric hip disorders | 329 |
| 28.1.1. | Normal development of the hip joint | 329 |
| 28.1.2. | Congenital dislocation and dysplasia of the hip | 331 |
| 28.1.3. | Osteochondritis capitis femoris juvenilis (Perthes' disease, Legg-Calvé-Perthes' disease). | 342 |
| 28.1.4. | Slipped capital femoral epiphysis (SCFE, epiphyseolysis capitis femoris juvenilis, coxa vara adolescent) | 347 |
| 28.1.5. | Coxa vara infantum (congenital) | 350 |
| 28.1.6. | Symptomatic coxa vara | 351 |
| 28.1.7. | Growth disturbances of the proximal femur | 352 |
| 28.1.8. | Transitory arthritis coxae (transitory hip joint inflammation) | 352 |
| 28.1.9. | Juvenile acetabular protrusion | 353 |
| 28.1.10. | Snapping hip, external coxa saltans | 354 |
| 28.1.11. | Inward or outward rotation of the legs | 354 |
| 28.1.12. | Limb shortening | 355 |
| 28.1.15. | Congenital hemiatrophy and hemihypertrophy | 358 |
| 28.2. | Hip disorders in adults | 358 |
| 28.2.1. | Functional anatomy | 358 |
| 28.2.2. | Deformities of the hip – prearthrosis | 359 |
| 28.2.2.1. | Valgus hip, coxa valga | 361 |

XIV ► Contens

| | |
|---|-----|
| 28.2.2.2. Varus hip, coxa vara | 362 |
| 28.2.2.3. Antetorsion and retortorsion of the hip (coxa antetorta and coxa retortorta) | 362 |
| 28.2.2.4. Other prearthroses | 363 |
| 28.2.2.5. Surgical treatment of prearthrotic conditions | 363 |
| 28.2.3. Idiopathic femur head necrosis (aseptic, avascular femur head necrosis) | 365 |
| 28.2.4. Coxarthrosis (hip osteoarthritis, arthrosis deformans coxae). | 368 |
| 29. Disorders of the knee (<i>László Hangody, Miklós Szendrői</i>) | 375 |
| 29.1. Structure and functional anatomy of the knee | 375 |
| 29.2. Congenital developmental disorders | 377 |
| 29.2.1. Congenital knee dislocation | 377 |
| 29.2.2. Genu recurvatum | 377 |
| 29.2.3. Developmental disorders of the patella. | 377 |
| 29.3. Repeated patella dislocation and subluxation | 378 |
| 29.3.1. Habitual dislocation of the patella | 378 |
| 29.3.2. Recurrent dislocation and subluxation of the patella | 378 |
| 29.3.3. Luxatio patellae congenita | 379 |
| 29.4. Developmental disorders of the menisci | 379 |
| 29.5. Developmental disorders of the tibia and fibula | 379 |
| 29.5.1. Tibia, fibula aplasia, hypoplasia | 379 |
| 29.5.2. Congenital tibia pseudarthrosis | 379 |
| 29.6. Axial deformities. | 380 |
| 29.6.1. Genu varum – crus varum | 380 |
| 29.6.2. Tibia vara epiphysarea (Blount's disease) | 381 |
| 29.6.3. Genu valgum – crus valgum | 381 |
| 29.6.4. Torsion of the tibia | 382 |
| 29.7. Aseptic osteochondroses around the knee | 382 |
| 29.7.1. Osteochondritis dissecans genus | 382 |
| 29.7.2. Osteochondritis of the tibial tubercle (Schlatter-Osgood's disease) | 383 |
| 29.7.3. Adult aseptic femur condyle necrosis (Ahlbäck's disease). | 384 |
| 29.8. Knee contractures | 385 |
| 29.9. Fluid accumulation (effusion) in the knee | 385 |
| 29.10. Cysts in the knee region | 386 |
| 29.10.1. Ganglion. | 386 |
| 29.10.2. Meniscus cyst | 386 |
| 29.10.3. Popliteal cyst (Baker's cyst). | 387 |
| 29.10.4. Bursitis praepatellaris | 387 |
| 29.11.1. Collateral ligament injuries | 388 |
| 29.11.2. Chronic collateral ligament insufficiency. | 388 |
| 29.11.3. Cruciate ligament injuries | 389 |
| 29.11.5. Meniscal tear | 391 |
| 29.13. Chondromalacia patellae | 392 |
| 29.14. Chondropathies, osteoarthritis (arthrosis) of the knee | 393 |
| 30. Disorders of the foot (<i>János Kránicz, Kálmán Tóth</i>) | 399 |
| 30.1. The functional anatomy and biomechanics of the foot | 399 |

| | |
|---|-----|
| 30.2. Foot deformities in childhood | 400 |
| 30.2.1. Congenital foot deformities, developmental abnormalities | 400 |
| 30.2.2. Pes equinovarus congenitus (congenital clubfoot) | 401 |
| 30.2.3. Pes adductus | 405 |
| 30.2.4. Pes excavatus | 406 |
| 30.2.5. Pes calcaneovalgus congenitus | 407 |
| 30.2.6. Accessory ossicles on the foot | 408 |
| 30.2.7. Tarsal coalition | 408 |
| 30.2.8. Osteochondrosis calcanei (apophysitis calcanei) | 409 |
| 30.2.9. Osteochondrosis ossis navicularis pedis (Köhler's I disease) | 409 |
| 30.2.10. Osteochondrosis capituli metatarsi II. (Köhler's II disease) | 410 |
| 30.3. Foot deformities in adulthood | 411 |
