

UNIVERSITY OF DEBRECEN  
MEDICAL AND HEALTH SCIENCE CENTER  
DEPARTMENT OF MEDICAL MICROBIOLOGY

# MICROBIOLOGY FOR DENTISTRY

VOLUME I

EDITED BY FERENC D. TÓTH

Debreceni Egyetemi Kiadó  
Debrecen University Press  
2010

# CONTENTS

<i>The science of microbiology. Ferenc D. Tóth</i> .....	1
<b>General bacteriology. Ferenc D. Tóth</b> .....	2
<i>Bacterial morphology</i> .....	2
<i>Physiology of bacterial growth</i> .....	12
<i>Bacterial genetics</i> .....	20
<i>Classification of medically important bacteria</i> .....	24
<i>Infection and pathogenesis</i> .....	28
<i>Sterilization and disinfection</i> .....	33
<i>Antibacterial agents</i> .....	38
<i>Drug resistance</i> .....	48
<i>Host defenses against bacteria</i> .....	52
<b>Bacteria of relevance to dentistry. József Kónya</b> .....	63
<i>Gram-positive cocci</i> .....	63
<i>Endospore-forming gram-positive rods</i> .....	70
<i>Regular, nonsporing, gram-positive rods</i> .....	76
<i>Filamentous gram-positive rods</i> .....	80
<i>Mycobacteria</i> .....	83
<i>Gram-negative cocci</i> .....	88
<i>Gram-negative coccobacilli</i> .....	91
<i>Facultative anaerobic gram-negative rods</i> .....	94
<i>Microaerophilic, helical, gram-negative rods</i> .....	95
<i>Anaerobic gram-negative rods</i> .....	97
<i>Spirochetes</i> .....	101
<i>Cell wall-less bacteria</i> .....	106
<b>Oral microbiology. Ferenc D. Tóth</b> .....	107
<i>The oral microflora</i> .....	107
<i>Defense mechanisms of the mouth</i> .....	116
<i>Dental plaque</i> .....	119
<i>Dental caries</i> .....	126
<i>Periodontal diseases</i> .....	134
<i>Dentoalveolar infections</i> .....	143
