CONTENTS

Preface 9

C. K. Jørgensen

Electron transfer spectra of lanthanides and 5*f* group complexes — how to distinguish outer-sphere, anisotropic and normal anion complexes 11
Discussion 18

S. Kirschner and D. C. Bhatnagar

The effects of ion association on the optical rotatory dispersion of coordination compounds 23
Discussion 28

R. Larsson and L. Johansson

Polarimetric investigations on outer-sphere complexes of the *d*-tris-(ethylenediamine)-cobalt(III) ion 31
Discussion 41

J. Halpern

Catalytic activation of hydrogen and related species by coordination compounds 45
Discussion 54

V. A. Tulupov

The mechanism of reactions of molecular hydrogen in presence of metal ions 57

J. C. Bailar Jr. and H. Itatani

Catalytic hydrogenation of soybean oil methyl ester and some related compounds 67
Discussion 81

L. Simándi and F. Nagy

Homogeneous catalytic hydrogenation of cinnamic acid using pentacyano-cobaltate(II) 83
Discussion 92

B. Jezowska-Trzebiatowska, A. Bartecki, K. Bukietynska, W. Kakolowicz and B. Kedzia

Spectroscopic evidence of ligand interactions with 5*f*-orbitals 95
Discussion 104

J. Szőke

Structure and some reactions of uranyl–acetylacetone complexes 107
Discussion 121

L. G. Sillén

Belief and facts about polyions 123
Discussion 142

P. Szarvas and É. Cs.-Kukri

Über die kompetitiven Gleichgewichte der Isopolywolframsäuren und des Komplexsystems Wolframat-Oxycarbonsäure 149
Diskussion 163

A. E. Martell

Stabilities of polynuclear and mixed ligand chelates of tri- and tetrapositive metal ions 165
Discussion 172

A. Gergely and B. Győri

On equilibria in the aqueous solution of the Nd(III)–*d*-glucosaminic acid system 175
Discussion 184

J. Bjerrum, R. S. George, C. J. Hawkins and D. C. Olson

Studies on the complex formation of class (*b*) metal ions with ligands containing phosphorus and arsenic as donor atoms 187
Discussion 196

V. Gutmann, O. Leitmann and G. Hampel

Azido complexes in certain non-aqueous solutions 199
Discussion 203

K. Burger, I. Ruff and F. Ruff

Effect of formation of tetragonal bipyramidal mixed complexes on the structure and stability of cobalt(II) dimethylglyoxime 205
Discussion 217

H. Irving

The solvent extraction of mixed complexes 219
Discussion 228

D. Dyrssen

Solvent extraction of mixed complexes 231
Discussion 240

I. Bakos, E. Szabó, L. András and Narayan Iyer

Synergistic and antagonistic effects in organic solvent extraction of various metals 241
Discussion 254

H. Graff and W. K. Wilmarth

The polarographic and base-catalysed reduction of binuclear Co(III, IV) μ-peroxo complexes 255
Discussion 262

D. Konrád and A. A. Vlček

Reaction of some low-valent transition metal complexes with halogenated hydrocarbons 265
Discussion 270

L. Markó

Die Wirkung von Schwefelverbindungen in der durch Kobaltcarbonyle katalysierten Hydroformylierung und Hydrierung 271
Diskussion 278

L. Kolditz

Über Fluorooxokomplexe des Arsens und Antimons 281
Diskussion 291

E. Kőrös, S. M. Nelson, F. Paulik, L. Erdey and F. Ruff

The structure and thermal decomposition of some cobalt(II)-pyrazine mixed complexes 295
Discussion 308

D. C. Bradley and A. H. Westlake

Infrared studies on polymeric metal ethoxides 309
Discussion 315

F. Majdik and Gy. Pfeifer

Investigations on the thermal stability of aluminium and titanium alkoxides 317
Discussion 325

Gy. Pfeifer and T. Flóra

Untersuchung der thermischen Eigenschaften von Vanadiummethylat 327
Diskussion 332

R. S. Nyholm

Polynuclear complexes involving metal–metal bonds 335
Discussion 347

L. H. Jones

Infrared and Raman studies of mixed cyanide–halide complexes of gold 349
Discussion 359

G. Bor
Analysis of the infrared spectra of some polynuclear metal carbonyls 361
Discussion 371

E. Thilo
Über die katalytische Wirkung von Kationen bei der Hydrolyse von Pyrosulfaten auf Grund von Chelatbindung 373
Diskussion 379

R. B. Jordan, C. A. Andrade and H. Taube
Reactivity of carboxylate ions bound in metal ammine complexes of tripositive metals 381
Discussion 393

H. L. Schläfer and W. Tausch
Zur Kinetik der an stark sauren Lösungen des *cis*-Dioxalatodiaquochrom(III)-Ions beobachteten Gleichgewichtseinstellung 395
Diskussion 405

Y. Marcus, J. Eliezer and M. Zangen
The stabilization of mixed complexes 409
Discussion 416

I. Leden
Some examples of equilibrium studies on mixed complexes 419
Discussion 423

E. P. Benson Jr. and C. H. Brubaker Jr.
The acceleration of the uranium(IV)–(VI) exchange reaction by tartaric acid 427
Discussion 434

G. Nord–Waind
An interpretation of the catalysis by chloride ions of the thallous–thallic exchange reaction 437
Discussion 448

W. Langenbeck
Über die Spezifität der katalytischen Wirkung von Metallchelaten 451

L. Kiss and J. Császár
Reduction of $Co(NH_3)_6Cl_3$ in water–KSCN–acetone solvent mixture in the presence of metallic mercury 457
Discussion 466

M. T. Beck
Some problems of the mechanism of redox reactions catalyzed by complexes 469
Discussion 479
