

Research Agenda for General Practice / Family Medicine and Primary Health Care in Europe

EUROPEAN GENERAL PRACTICE

EGPRN

RESEARCH NETWORK

*EGPRN is a network organisation within
WONCA Region Europe - ESGP/FM*

Eva Hummers-Pradier, Martin Beyer, Patrick Chevallier, Sophia Eilat-Tsanani,
Christos Lionis, Lieve Peremans, Davorina Petek, Imre Rurik, Jean Karl Soler, Henri E.J.H. Stoffers,
Thomas Wever, Mehmet Ungan, Paul van Royen

Table of contents

Introduction	7
Methodology	10
Towards a European Research Agenda – a historical overview	10
Literature review	11
Search strategy	11
Critical appraisal	11
Summarising the literature	12
Compilation of results	12
Results	13
Primary care management	13
Definition of the research domain	13
Summary of findings	13
Needs for further research	15
Appropriate research methodology	15
Person-centred care	16
Definition of the research domain	16
Summary of findings	16
Needs for further research	17
Appropriate research methodology	17
Specific problem solving skills	18
Definition of the research domain	18
Diagnosis	18
Therapy	18
Specific approaches of problem solving	18
Educational research	19
Summary of findings	19
Retrieval and appreciation of literature	19
Predominant research themes 2003 - 2008	19
Research on diagnostic reasoning and diagnostic tests	20
Research on therapy	20
Research on chronic care / disease management	21
Research on (shared) decision making	21
Research on quality of care	21
Research on genetics /genomics in GP/FM	22
Educational research	22
Needs for further research and appropriate research methodology	23
Comprehensive approach	24
Definition of the research domain	24
Summary of findings	24
Retrieval and appreciation of literature	24
Results of the literature review	24
Needs for further research	25
Appropriate research methodology	26
Community orientation	27
Definition of the research domain	27
Summary of findings	27
Needs for further research	28

Appropriate research methodology	28
Holistic approach	29
Definition of the research domain	29
Summary of findings	29
Needs for further research	30
Appropriate research methodology	30
How to start research in general practice in a country with low capacity or limited resources	31
Identify research needs in your country and establish a list of priorities	31
Choose your research subject	31
Draw up a good research plan	32
Build up a research team	33
Develop skills and attend research courses	34
Think about facilitating conditions	34
Conclusion and discussion	35
Conclusion	35
Agenda for future research	35
Appropriate research methodology	36
Discussion of the methodology	37
Discussion with regard to other literature on research in GP/FM	38
Implications	40
Implications for research organisations	40
Implications for patients	40
Implications for research	41
Implications for journals	41
Implications for policy	42
Acknowledgements	43
Appendices	44
Overview of search strategies	44
Primary care management	44
Patient centeredness	44
Specific problem solving skills	44
Comprehensive approach	45
Community orientation	46
Holistic approach	46
Literature by chapter	47
