

Off-campus access settings Opera

The screenshot shows the Opera browser interface. The main menu is open on the left side, listing various options such as New tab, Zoom, History, and Settings. The 'Settings' option is highlighted with a mouse cursor. The background of the browser window displays a search bar and several website tiles including Amazon, MALL.HU, Facebook, YouTube, and AliExpress.

Main menu >> Settings

1.

The image shows the Opera browser settings page. The left sidebar contains navigation options: Settings, Basic, Browser (highlighted), Websites, Privacy & security, Opera help, and Rate Opera. The main content area is divided into sections: Search (with a dropdown for Google Search and a 'Manage search engines...' button), Default browser (stating the default is Opera with an 'Import bookmarks and settings...' button), Reset Opera (with a 'Reset browser settings...' button), Network (stating it uses system proxy settings with a 'Change proxy settings...' button and a 'Learn more' link), and Languages (with a 'Select user interface language' dropdown). A dark green banner at the bottom contains the text 'Browser >> Change proxy settings'. A yellow circle with the number '2.' is in the bottom right corner.

4.

The image shows a browser window with a Speed Dial page. The page features a Google search bar at the top and several website tiles including Booking.com, Amazon, AliExpress, and YouTube. A Windows Security dialog box is overlaid on the page, titled "Opera Autoupdate". The dialog box contains the following text: "Please sign in to the proxy server at http://cache.lib.unideb.hu:5128/ Server's message: University and National Library University of Debrecen". Below the text are two input fields: the first contains the text "ud0016013756" and the second contains four dots. There is a checkbox labeled "Remember me" which is currently unchecked. At the bottom of the dialog box are two buttons: "OK" and "Cancel".
